(a) Routine Discharge. A patient discharged from this hospital to return home or to another private residence. Patients scheduled for follow-up care at a physician's office or a clinic shall be included. Excludes patients referred to a home health service.

DISCUSSION

See Examples 1 and 2 at the end of this subsection.

This category is used to indicate discharge to a location not licensed as a hospital by the Department of Health Services and includes:

- Patients discharged to a home environment (e.g., half-way house, group home, foster care, woman's shelter).
- Patients discharged home either directly from the hospital, or after being treated at a licensed ambulatory surgery facility, or after receiving outpatient services at your or another hospital.
- Patients discharged to an Alcoholism or Drug Abuse Recovery or Treatment Facility as licensed by the Department of Alcoholism and Drug Programs.
- Patients discharged home with hospice care.
- Patients who are homeless.

(b) Acute Care Within This Hospital. A patient discharged to inpatient hospital care that is of a medical/surgical nature, such as to a perinatal, pediatric, intensive care, coronary care, respiratory care, newborn intensive care, or burn unit within this reporting hospital.

DISCUSSION

See Examples 3, 4, and 5 at the end of this subsection.

Consolidated Hospital Submitting One Discharge Data Report:

Includes patients discharged from a TOC 3, 4, 5, or 6 bed to a TOC 1 bed.

ADDITIONAL DISCUSSION FOR ALL CATEGORIES

- **Skilled Nursing Bed Hold Days:** Skilled nursing **bed hold days are not reported** to OSHPD. A patient cannot be reported in two Types of Care at the same time.
- **Mode of Transportation:** The mode of transporting a patient from one health facility to another is irrelevant to the patient's disposition.
- **Billing Requirements:** The use of coded information has become increasingly important in the health care reimbursement systems. This impacted the reporting of disposition codes, and codes for diagnoses, procedures, and E-codes to OSHPD.

The Inpatient Data Reporting Requirements in California Code of Regulations cannot deal effectively with every billing requirement because the variations and rules are not consistent among insurers and because they change from time to time.

The hospital should always apply the reporting requirements as specified in the California Code of Regulations, Title 22, Division 7, Chapter 10, Article 8, regardless of which reimbursement system is involved.
